

## PROTECTING AGAINST CORROSION

Petrochemicals can be converted into thousands of industrial and consumer products, including plastics, paints, rubber, fertilizers, detergents, dyes, textiles and solvents. All processes require complex processing at industrial plants and facilities.

### PUMP REPAIR AND MONITORING

Dedicated pump repair team, and the latest on-site thermodynamic pump testing.

### FLUID EFFICIENCY

Fluiglade coatings systems for pumps and pipe work increasing efficiency and reducing costs.

### CONDENSER TUBE BULLETING

Condenser, water box tube cleaning and repair service, heat exchange coolers

### FUEL TANKS

Tank lining and repair.

### BUND AREAS AND FLOORING

Specialist concrete screeds, repair compounds and chemically resistant coating systems

### PIPE-WORK

On/off site pipe blasting and spray coating. Remote pipe spraying—Agmec. Market leader in protective pipe coating.

### WE CAN PROTECT YOUR PLANT:

T: 0113 2760 760      W: [corroserve.com](http://corroserve.com)

#### ECONOMISER

Economisers suffer problems especially at expansion joints creating cold spots.

#### WATERBOXES, WATER TANKS

Repair and relining services for water boxes, process vessels.

#### FLUE GAS DUCTING

Ducting prone to corrosion throughout the plant.

#### ID FAN

Fan impeller coatings and dynamic balancing

#### STACK

Issues with sulphuric and HCL acid condensation

#### STRUCTURAL STEEL WORK

Structural steel work can be corrosion protected including ducting, silos and hoppers.

#### CHEMICAL AND ABRASION PROTECTION

Specialist protective coatings for all testing service environments.
